Driving enhanced productivity with SAP Business One® and Intelligent Technologies

GOLF-PARK WINNEROD

SME Bus!ness Innov@tion

Golf-Park Winnerod manages and maintains a 27 hole golf course. When management wanted to improve transparency and optimize workflows to track employees' time easier they implemented SAP Business One and COBI.time.

Before: Challenges and Opportunities
- Previously, Golf-Park Winnerod had a simple time management solution that did not integrate with SAP Business One.
- Adding new employees to the system was cumbersome.
- Logging into time management was only possible via RFID.
- New software was required that would eliminate the possibility of time theft and 'buddy' punching.

Why SAP Business One and COBISOFT
- SAP Business One was the perfect cloud-based solution to address Golf-Park Winnerod's challenges.
- SAP Business One was easy to integrate, extend and came at an affordable price.
- COBISOFT seamlessly integrated COBI.time to provide Golf-Park Winnerod with full visibility of their workforce costs, reducing administrative effort.

After: Value-Driven Results
- Since implementation, management now has a fully integrated personnel time keeping solution.
- The face recognition module has reduced the risk of fraudulent time reporting.
- Real-time accurate data means less time is spent tracking employees.
- Easy login via face recognition, PIN, RFID and extended security options helps eliminate inaccurate staff timekeeping.

"Using **face recognition** makes authentication quick, convenient and prevents fraudulent time reporting. With facial recognition, if the employee isn't there to have their face scanned, then they won't be clocked in."

Kim Tarek Kleczka, Manager, Golf-Park Winnerod

Intelligent timekeeping

since implementation of SAP Business One
